JOSÉ GUTIERREZ MEMORIAL SCHOLARSHIP

The Black Male Academic Achievement Conference has created a scholarship in honor and memory of one of Washington's sons, José Gutierrez. José was a graduate of WSU, WWU, and Evergreen State College and a passionate community activist who used his creativity and love of the arts to make a difference in his community. His legacy of activism continues in his communities, and the campuses he attended, including the WSU student organization he helped found, Black Men Making a Difference (BMMAD), which continues to flourish decades later.

This scholarship will be awarded to a BMAAC Conference student who has demonstrated leadership on campus in activism.

****All nominees must be present at the Black Male Academic Achievement Conference to be eligible.****
